

PRESS RELEASE

BMI Group formulates its strategic aspirations – We See Further

London, 6 October 2017. BMI Group ["BMI"], the largest manufacturer of flat and pitched roof systems in Europe, today announced its strategic aspirations, "We See Further", based on its ambition for helping people find the perfect roofing solutions for the places where they live and work.

We See Further sets out BMI's aspirations that a roof can offer so much more than shelter, protection and peace of mind.

Tony Robson, Executive Chairman at BMI Group explained: "With our extensive expertise and portfolio of system solutions the roofs above our heads have the potential to transform the way we live and work. They can be a power station with solar panels, an outdoor living space, a vertical garden, or even a work of art. The possibilities are endless and BMI is here to make this vision a reality for people's homes and workplaces."

BMI Group is part of the Standard Industries family of companies, which includes GAF, the leading manufacturer of roofing and waterproofing solutions in North America. BMI was established as a leader in roofing, waterproofing and chimneys following the coming together of Braas Monier and Icopal in 2017. Georg Harrasser, President of BMI Group said: "The combined heritage of these two groups represents a 150 year history of delivering roofing and waterproofing excellence to customers and brings together some of the biggest and most trusted names in the industry. From our unique wind tunnel testing facility to products that tackle pollution, BMI's knowledge and scale allows us to pioneer new standards and greener solutions."
